

DO YOU SUFFER FROM HEREDITARY ANGIOEDEMA?????

If you or someone you care for has chronic urticaria (CIU) also referred to as chronic hives, you may want to consider helping research into the disease by taking part in clinical study.

We are looking for volunteers like you to help our research move forward.

You or a person you care for may qualify if:

- You are 12-75 years old
- Have at least 4 HAE attacks over a consecutive 2-month period that has required acute treatment.
